

Two-Step Folding Step Stool

Brings the Out-of-Reach Within Reach.

Rubbermaid's Two-Step Folding Step Stool is an essential and convenient tool for those small jobs that are just out of reach. It's sturdy, lightweight, safe, and handy for overhead maintenance activities or any chore that requires a boost, not a ladder.

Constructed of polypropylene, the Step Stool is strong enough to support 300 lbs. (136.1 kg) yet weighs only 7 lbs. (3.2 kg). The top step gently lifts for easy folding—there's no metal hinge to pinch fingers, and even small-statured workers can fold and carry it without injury.

Wide, slip-resistant steps help control footing and skid-resistant footpads ensure safety on almost any surface, so it's ideal for commercial use.

Cleaning and storing are simple, too. The Step Stool's smooth, rounded frame is easy to clean and resists rust and dents. When folded, it's only 7" wide (17.8 cm) and can stand upright alone.

Sturdy, lightweight, durable, and compact, Rubbermaid's Two-Step Folding Step Stool will give you a lift, not a hassle.

Holds up to 300 lbs. (136.1 kg) yet weighs less than 7 lbs. (3.2 kg).

Top step gently lifts for easy folding.

Textured slip-resistant step surfaces.

Includes skid-resistant footpads.

Resists rust and dents.
