## Tandem Brute® Dolly

Availability Date: July, 2001

The Tandem Brute® Dolly allows efficient dual collection of recyclables and general waste.

Brute® Containers can be nested and the Tandem Brute® Dolly folded upright for space-saving storage.

Now Rubbermaid helps double your productivity with the new Tandem Brute® Dolly. Customize the dolly to suit your particular needs with two Brute® Containers in mixed and matched colors and sizes. Heavy-duty 8" (20.3 cm) wheels and four swivel casters afford easy mobility for maneuvering through dense personal workspaces, narrow hallways and around corners. An innovative hinge design facilitates smooth transport of uneven loads over thresholds as well as onto and off of elevators. For commercial recycling applications, the Tandem Brute® Dolly lets your cleaning staff maintain separate waste streams throughout the collection process. Gone is the inefficiency of duplicate same-day or alternate-day collection rounds to separate general waste from recyclable materials. When not in use, the dolly unit folds upright to optimize storage space utilization.

Whatever your collection and transport requirements, give productivity a welcome boost in your operation with the Tandem Brute® Dolly, from Rubbermaid!
