

Safety Cones & Barricade System

Every year, slip, trip, and fall accidents cost U.S. businesses nearly \$60,000 per lawsuit.

Source: The National Floor Safety Institute.

Stackable cones transport effortlessly on Brute® Dollies.

Lock-in sign holder boldly displays a 7" x 10" (17.8 cm x 25.4 cm) or 10" x 14" (25.4 cm x 35.6 cm) safety sign (not included).

Alert Pedestrians of Hazardous Areas with Safety Cones & Barricades by Rubbermaid.

The Over-The-Spill™ Safety Cone, with perforated, ultra-absorbent pads, is an effective, immediate way to clean a spill while warning of a slippery surface.

Slippery floors and dangerous work areas are potential disasters to unaware pedestrians. Every year, slip-and-fall accidents result in thousands of disabling injuries. Safeguarding against such costly mishaps is imperative in high-traffic areas of supermarkets, shopping centers, and other public buildings. That's why Rubbermaid has expanded its line of hazard awareness products to include the Safety Cones and Barricade System.

Architecturally styled for use in any type or size facility, the 4-sided Safety Cone body has rounded corners, a bright yellow color that meets OSHA standards and striking red and black graphics permanently hot stamped in a choice of messages. Optional features include a flashing hazard light and lock-in sign holder for added visibility, and weight rings for extra stability.

The Over-The-Spill™ Safety Cone is efficient for spill warning and clean-up, while the Mobile Safety Cone is perfect for easy transport to hazard sites. The Portable Barricade System includes a Safety Cone equipped with a double-weight ring to help prevent tipping and a self-retracting belt that boldly outlines the restricted area.

Whether Rerouting Foot Traffic or Warning of a Hazard, Put Rubbermaid's Safety Cones & Barricade System on the Scene.

Safety cones can be easily stored and transported on any Brute® Dolly. The small base footprint requires minimum storage space when stacked.

Self-retracting belt adjusts up to 72" (182.9 cm) and is compatible with other common barricade systems. Weight rings provide superior stability.

Barricade System safely redirects patrons around work areas and ensures worker productivity.

Rubbermaid's Innovative Safety Cones & Barricade System Complement Any Safety Program.

Molded-in slots accept barrier chains and make handling easy.

Self-retracting, synthetic barricade belt easily adjusts up to 72" (182.9 cm).

Four-sided cone shape allows efficient stacking.

Optional flashing light increases awareness.

Selected cones available in yellow and lime green.

Highly visible, multi-lingual messages warn pedestrians.

Versatile tip accommodates flashing light or lock-in sign holder.

Weight rings provide extra stability.

Optional lock-in sign holder attaches easily.

Convenient perforated Over-The-Spill™ Pads provide immediate attention to absorb spills.

Small base footprint has stylish rounded corners.
